Not together to open, but you play with good style and confidence. Sop/Cor not in tune 5th of 1. (2) this flows well but the articulation in the melody line is not always correct. Rather hesitant into 3 then some good sounds.

(4) The music is well shaped, you play with good style, just some hesitant playing on the repeat.

(5) Again well shaped and played with confidence.

(7) Not always secure, but again good style, Bass part missing.

(9) Correct style for the music with good balance the little var. are not always in sympathy with the theme. Good playing at 11 and you build well to the close.

(12) Very confident and rhythmic playing you play as though you are enjoying the music. Good ending.

A very good and musical performance.
Thank you Band and Conductor.
